Flameguard Plus Outfit

Details

Marine Fireman's Outfit comprising Helmet, Jacket, Trousers, Fireman's Gloves, Non-conductive Gloves and Fireman's Boots

Helmet (EN443)

The Fuego helmet is constructed with a glass fibre charged polyamide shell providing a very high level of protection against the risks encountered in ship-borne fire fighting. The helmet is heat, flame, shock and electrical hazard resistant. An aluminised neck curtain and lift up visor to EN166 is provided as standard. Weight 1.8 kgs

Flameguard Plus Suit (EN469)

The Flameguard Plus Suit is a two-piece garment with a two-layer construction. The outer shell uses a fire resistant substrate as a base laminated to an aluminised film optimised for the marine salt water environment. The jacket has a stand up collar, overlapping front with touch and close fastening to the front and collar. The trousers have wide elasticated braces with adjusters and quick-release buckles. Weight 4.5 kgs

Fireman's Gloves Leather (EN659)

Leather gloves with Kevlar insert and cuff. Heat resistant, slash and puncture resistant. Weight 0.5 kgs

Non-Conductive Gloves (EN60903)

Electrically insulating to 500 volts working, tested to 2500 volts AC. Weight 0.1 kgs

Fireman's Boots (EN 20345, EN 15090)

Fire resistant Wellingtons, made in fireproof nitrile rubber with polymer toe cap and composite anti-perforation mid-sole. Weight 2.5 kgs

Excellent resistance to heat contact, heat flow, fire. Excellent resistance to chemicals : fuels, oils, greases, solvents, weak and diluted acids. Excellent resistance to abrasion and cuts
