

Crewsaver®

IMMERSION SUIT

- ✓ Unpacked and donned in under 2 minutes
- ✓ Fire retardant Neoprene construction
- ✓ Withstands the impact of a jump into water from 4.5m
- ✓ Prevents a typical wearer's core body temperature from dropping by more than 2C after six hours in calm water of 0-2C

MED/SOLAS approved

The Crewsaver industrial and commercial range has been developed over many years using only the most advanced fabrics and manufacturing processes. Continuous stringent research and development within the industry has seen Crewsaver products in use worldwide in a diverse range of commercial sectors and institutions. Designed to perform in the most arduous environments, Crewsaver has developed a range that suits all your safety needs.

Immersion Suit

Crewsaver Immersion Suits are designed to meet and are fully approved to the current SOLAS MED regulations. They are made from 5mm fire retardant Neoprene to provide good insulation and resistance to oil, sunlight and seawater. Supplied in its own carry bag with donning instructions - quick and easy to put on. All seams are glued and blind-stitched to ensure they are totally waterproof. Critical areas are taped for additional reinforcement and the foot sole is reinforced.

The face and gloves have Neoprene seals, and, combined with a mouth and nose mask, ensure a comfortable and secure body seal. Five fingered integral gloves provide great dexterity and for extra insulation an overglove is stowed in its own sleeve pocket. It also features one-piece durable metal zip, (as tested by the military), for dependability, and ankle adjusters for secure and comfortable fit. Safety aids include: SOLAS grade retro-reflective tape on head, chest, arms and back; whistle, buddy line stowed in sleeve pocket; an optional 50mm nylon strop with a stainless steel D-ring can also be fitted.

The Crewsaver Immersion Suit is already in use by many of the World's shipping lines and offshore oil & gas exploration companies. High build quality, ease of use and compact stowage are just some of the many features that make this the proven lifesaving choice.

BUOYANCY PLUS (With Buoyancy Pillow)

Features a foam filled buoyancy pillow which means that, subject to the National Marine Administration, the suit can be worn without a Lifejacket.
