

The Ocean Safety MED 150

This 150N Lifejacket has been designed as a dual purpose Emergency Abandonment or Constant Wear lifejacket.

As a twin chambered jacket with automatic firing mechanisms, whistle, light, retro-reflective tape and lift/grab loops, this jacket is specifically designed to meet the rigours of the latest amendments in SOLAS (Chapter III 2010) and M.E.D. (Ship's Wheel). The split front design allows the wearer unrestricted movement and full forward and downward vision. The patented interlocking lobe design self rights the wearer in under 5 seconds and provides an effective wave barrier preventing water from being channelled into the airways, while the tailored neck design gives vital support to the head and neck, even to an unconscious subject.

Features

- Standard lobe design - self-rights the wearer when inflated
- High visibility fabric
- Twin chamber security
- Lightweight and comfortable to wear
- Fully approved to the latest amendments in SOLAS Chapter III 2010
- Unique bladder shape

Specification

- Twin independent chambers - UML firing heads
- Automatic inflation system
- Retro-reflective tape
- Whistle
- Grab loop
- AQO2 Location light
- Buddy line
- Produced using components that conform to ISO 12402
- Harness
- Crotch strap
