Details

The Kru Child's lifejacket has been designed for children from 15kg to 30kg with the Kru Junior lifejacket for children from 30kg to 40kg in weight. These weight differentiations and the necessary re-arm packs are clearly labelled on the lifejacket itself. They are both complete with a harness and crutch strap, and are easy to re-pack in the event of accidental inflation.

Features

- Automatic inflation
- Crotch strap
- Light fitting patch
- Harness
- Gas cylinder : 18g for child, 24g for Junior
- Easy to repack
- Approved service network
- Made in the UK
- 5 year guarantee
